HYGEANA. A powerful discovery has been made by Dr. Curlier, of Astoria, Oregon, at one of the Conventions, Astoria, Oregon, of the Lung Association, of the Cause of Consumption. We refer to Hygeana, or Inhaling Hygeana, or Hygeana Syrup. With this new medicine we have restored many afflicted of the lungs, as an evidence of which we have the following testimonials and certificates. Speak it, it is a physician remarks: It is a healthy—constantly breathing—cooling vapor, the medicinal agent in direct contact with the mucous membrane of the lungs, and the most powerful and varied change produced in the system. It has been introduced into the treatment of all the diseases of the lungs, and in the process of digestion it is for sale at the drug stores of every country.—*New York Dispatch.* The inhaler is worn on the breast, and without the least inconvenience the body being sufficient to hold it. In all cases of Spasms like this it is bamed. *Ap. (Lack)*

THE ADAMS SENTINEL

GETTYSBURG:

MONDAY, JULY 30, 1866.

The Rev. J. C. Smith, who has been

for the last thirteen years Lutheran Pastor

at Petersburg, (Va.) has accepted a call

from the church at Shippenburg, Pa. and

will change his residence this fall. Mr.

Smith, says the Observer, has been a laborer

and successful minister at Petersburg,

serving five churches, and preaching three

sermons per Sabbath and frequently during

the week most of the time. He added 800

members to the church, and buried 500 per-

sons during his residence there. He finally

found his health giving way under the so-

vere and accumulating labors of this sta-

tion, and for this cause he decided it ne-

cessary to make a change.

The "Old Academy," at present the

residence of Mr. Henry Satterlee, was

struck by lightning during the storm

on Tuesday evening last. The electric fluid

passed down the protecting rod, but at the

spouting descended it, probably from some

defect therein, and passed down to the earth,

without doing any damage.

The high prices of vegetables are be-

ginning to give way before the abundant

product of the season, and a good time is

ahead. In the article of Potatoes, for ex-

ample, the price has fallen in the last few

days from \$1.25 to 50 cents per bushel—

for the latter sum this valuable esculent

can now be purchased in any quantity.

Our former Adams county man, J. M.

McCreary, has received the nomination

of the American party in Schuylkill county,

for State Senator. He is a clever fellow,

and a good Whig, and we hope he may be

elected.

Whig State Convention.

The Whig State Central Committee met

at Philadelphia on Monday last, and, after

organizing, fixed the 11th day of Septem-

ber next for the meeting of the Whig State

Convention, which is to be held at Harris-

burg.

Specie Going!

The steamer Pacific sailed from New York

on Wednesday last, for Liverpool, with 175

passengers and \$200,000 in specie!

The yellow fever has broken out at

Portsmouth, Va. It was brought to the

Navy Yard there by a steamer from the

West Indies. Eighteen cases and eight

deaths had occurred up to Wednesday. So

far the disease is confined to the vicinity

of the Navy Yard.

The yellow fever is on the increase

in New Orleans. The deaths in the hospi-

tal alone, for the week ending July 24, was

63.

The Commencement exercises of

Franklin and Marshall College, at Lancaster,

took place on Wednesday last. On

Tuesday, the Rev. J. S. Croubrough ad-

dressed the Literary Societies, and George

W. Brown, Esq., of Chambersburg, the

Alumni. The graduating class numbered

ten. The inauguration of Mr. GEHART, as

President of the College, took place on

Wednesday morning.

The Rev. Joseph Atkinson, Pastor

of the Presbyterian Church in Frederick,

has accepted a call to Raleigh, N.C., and

preached his farewell sermon at Frederick

yesterday week.

Another fatal case from explosion

of camphor, took place at Brooklyn, N. Y.

on Friday week. A widow named Sarah

Bliss, was engaged in replenishing a lamp

with the fluid, when it exploded, and she

was so dreadfully burned, that she expired

in less than an hour. She was left a widow

with a family of eight children.

During the storm of Friday week,

the barns of Mr. Peter Baker, and Mr.

Frederick Manum, in Cumberland county,

were struck by lightning, and burned, with

their contents. Mr. Baker's loss is said to

be large, as nearly his entire grain crop was

stored in the barn. Mr. Manum's is said

to be not so very heavy, and is covered by

insurance.

During the same storm a woman named

Young, in York county, near Shermers-

burg, was struck by lightning and instantly

killed. She was working in the field when

the storm came up, and ran for shelter to a

large tree near by. The tree was soon af-

ter struck by lightning, causing the death of

the woman.

A barn near Columbia, and one near

Lancaster, were struck by lightning on Tues-

day evening last, and burned. In the for-

mer 7 cows were killed.

They have a novel way of putting

dogs to death in the public pound in the

city of New York. The animals are put

into a box perforated with holes, which

is set on fire, and the dogs are roasted

to death. A poor fellow who was charged

with having a dog in his possession, was

sentenced to have his dog roasted to death.

During the general and severe storm of Friday week, Mrs. BRECKENRIDGE, (we presume, formerly of this county,) whilst sitting upon the porch of her house, near Orstown, Franklin county, was so severely stunned by lightning that she fell to the floor. Happily she was not severely injured, and has quite recovered from the effects of the shock.

The barn of Mr. Wingert, near Pleasant Hall, Franklin county, was struck by lightning during the storm of Friday week, and consumed, with its contents. The entire crop of the season was destroyed.

C. Boughter, the late Treasurer of the Lancaster Savings Institution, was brought before Judge Hays on the 16th inst., on a writ of Habeas Corpus, and asked to be admitted to bail. The Judge demanded \$100,000 bail, which not being procured, he was remanded to prison. He was to have another hearing.

The applications for new banks to be acted upon by the next Legislature, exceed those of any previous year within our recollection. Philadelphia already asks for an increase of \$25,000,000 in her banking capital, and the aggregate increase asked for throughout the State amounts to \$37,350,000. Of course, not one tenth of the increase asked for can secure the sanction of Gov. Pollock.

Whilst a large number of persons were sea-bathing at Coney Island, N. Y. on Wednesday, five of the party got beyond their depth, and drifted out to sea. Three were saved, but the Rev. Mr. Elliott and his wife, of Williamsburg, were drowned. She was quite young, and said to be of rare beauty and amiability of disposition. The peril of Miss Elliott was seen by her husband, Mr. Thomas Gibbons, who immediately swam to where she was struggling in the water, and succeeded in holding her up for some time. The greatest excitement prevailed at the moment the tragedy was being enacted, and no one seemed able to offer any assistance. The couple were borne out rapidly and those on the shore gave them up for lost, when it was seen that Mr. Gibbons had secured a piece of timber, and had seized it for support, but it was not large enough to uphold both, and Mr. Gibbons disengaged himself from Miss Elliott and told her to grasp the suspensors of his bathing dress behind, while he held on to the wood. This she did for a time; but with a true woman's devotion, seeing that her lover was sinking, and fearing that he would drown, she suppressed, in that moment of peril, when the horrors of death were clustering around her, the selfish instinct of her nature for life, and let go her hold, though he begged her to hold on, and her own soul to never mind him, but herself. She soon sank and was seen no more. Mr. Gibbons was fortunately drifted towards a point on the island where he found a foot-hold, and was dragged ashore by means of ropes.

This melancholy affair caused deep feeling on the island, and the self-devotion exhibited by the unfortunate girl was the theme of many an admiring eulogy.

A little girl about ten years old got her head awfully cut on the New Jersey railroad by sticking it out of the car window just in season to get it caught between the car and the track to a bridge.

Killed by Lightning.—On Tuesday last, four young girls were picking cherries at Johnstown, Warren county, N. Y., one of them, named L. H. Gray, was instantly killed by a flash of lightning; but, strange to say, there was no appearance of rain or clouds.

From California.

The steamers Star of the West and the George Law, arrived at New York on Wednesday, with California dates to the 1st inst. They bring 760 passengers, and \$1,000,000 in gold.

The Democratic State Convention has nominated Gov. Bigler and Lieut. Gov. Fardy, for reelection. They adopted a platform resembling the last Baltimore platform, with an additional resolution denouncing the Know-Nothings.

The news from the mines is encouraging. The Indians on the Klarnah river are committing murders and ravages upon the whites. A party of 15 whites are reported to have been killed. The volunteer companies have turned out to repress them.

The steamship America was destroyed by fire at Crescent City. She had on board three companies of U. S. troops, but they escaped. The loss is estimated at \$140,000.

The Oregon Legislature is Democratic throughout. The majority of Mr. Lane is 2200.

Destructive Storm.—A violent thunder storm prevailed at Chester, S. C., on Friday night week. Several houses were blown down, and one consumed by lightning. The flames communicated to others, which were also burned. McNair, Lynch and Morgan were the principal sufferers.

Blind to Death.—A young man named John Barnes, aged 17 years, died to death on the 16th inst., at Buffalo, from the effect of a tooth which had been extracted some days previous.

Mr. Brewster, of Providence, R. I., aged about 65, was found to death in his home yesterday week.

The annual meeting of the American Association of Physicians, held at New York, on Monday and Tuesday, from the same cause.

Political Movement.

The American party seems to be in a curiously split-up condition, in consequence of the proceedings of the last National Convention. The Louisiana branch of the order has disavowed all connection with the National Council, and repudiated the Catholic plank of its platform. The State Councils of Maine, Vermont, Massachusetts, Rhode Island, Pennsylvania, Ohio, and Illinois have rejected the national platform, and most of them have made creeds of their own, differing essentially from the general one, not only in reference to slavery but to other questions. In New England and the West the seceders have liberalized their principles so as to include many classes of naturalized citizens. In some cases also the opposition to Catholics has been softened down from opposition against all ecclesiastical despotism. In Vermont the organization has been thrown open, assumed the name of the American party, and declared against the extension of slavery. There are scarcely two of these northern platforms alike. In New Jersey no State action has yet been had, but all the councils of Trenton and Newark have rejected the national creed, and declared in favor of the restoration of the Missouri Compromise. In Pennsylvania, a portion of the Councils attached to the National platform have bolted since the action at Reading, and organized a new State body, which, by the way, has a majority in the Executive council of the party in Philadelphia. Two of the seceders were from Montgomery county, and of these one has since been repudiated by the Council he represented, that of the Upper Ward of Norristown, which, in the Herald tells us, has approved of the State action, and denounced the National platform. —*Carlisle Herald.*

The Farmers' High School.

The committee, consisting of Governor Pollock, Dr. Elwyn and Judge Watts, appointed by the Board of Trustees of the Farmers' High School, to visit and report upon the several locations offered as donations for the occupancy of this institution, made a partial report on the 17th inst., but desired to be continued in order that they might have time to view other locations to which their attention had recently been invited. Another meeting of the Board will therefore take place on the 22nd of September, when a choice will be made.

A committee, composed of Dr. A. L. Elwyn, Hon. John Strohm, and Judge Wm. Jessup, was appointed to select a proper person for principal of the institution.

Pennsylvania State Debt.—The interest on the public debt of Pennsylvania will be paid on the 1st proximo, the requisite amount being already in the State Treasury. Indeed there will be some two or three hundred thousand dollars on hand after the interest is paid. The Philadelphia Ledger, however, says it must not be taken for granted from this, that the State Treasury is in a good condition, as the reverse is the fact. The temporary loans now exceed \$10,000,000.

Mr. Baird, who was nominated to the Know-Nothing Councils last fall as a member of the Order, and made their nominee for Supreme Judge, has recently written a letter to the Pittsburg Dispatch in which he declares that he never has been, and never can be, a Know-Nothing. The Know-Nothings, therefore, had two men—Mr. Baird and—on their State ticket last fall, who were opposed to the Order, and yet both these gentlemen were declared to be members of the Order.

Loss from the Western Plague.

St. Louis, July 25.—Advises from Santa Fe state that Col. Montfort had returned from the pursuit of the "Indians," and he overtook a party near the headquarters of the Kansas river, and after a brisk engagement he routed them, killing 500 and making five prisoners. Major Brooks and one man were killed. The Indians, however, still continued their depredations at various points. The Kiwas, Carancho, and Cheyenne were in the vicinity of Walnut Creek, receiving their supplies from the Government.

One Week Later from Europe.

SANDY Hook, July 25.—The steamer Atlantic has arrived, bringing Liverpool dates of July 14th.

A Ministerial crisis had occurred in England, caused by Lord John Russell's equivocal explanation of his conduct at Vienna. Sir Edward Bulwer Lytton had moved that a Ministry containing Lord John Russell was unworthy of public confidence, which being sustained, it was expected that Lord Palmerston would either throw Lord John Russell overboard, dissolve Parliament, or himself resign. The proposition of Palmerston would take place on the 14th of August, unless sooner dissolved.

Sebastopol had been again subjected to two days' bombardment without any result. The Allies were now erecting immovable works against the Malakoff and Rensel, the Russians were replying to these demonstrations by the erection of equally formidable works behind and around them.

Death of Rev. Alexander Campbell.

The death of Rev. ALEXANDER CAMPBELL, of Bethany, Va., is announced. He will be remembered as one who had attained considerable notoriety in the religious circles in this country. He was the founder of the sect of Christians, known as the "Disciples," now very numerous and powerful in the Western and Southwestern States. He was also the President of a Theological College at Bethany; the editor of a denominational Magazine, and a man of much learning and eloquence. He visited England some few years since, and was mobbed at Edinburgh, Scotland, for some sentiment he publicly advanced there in defence of the system of African slavery as practised in this country. He died in New Orleans on the 27th ult., of disease of the heart.

Failure to Sell the Main Line of the Public Works of Pennsylvania.

PHILADELPHIA, July 24.—A crowd of some three hundred persons congregated at the Merchants' Exchange in this city this evening to attend the sale of the Main Line of the Public Works of the State. Governor Pollock, Secretary of State Curtin, Attorney General Franklin, and the Commissioners appointed in pursuance of the act of the Legislature, were present.

Mr. Myers, the auctioneer, stated the terms:—that no bid for less than \$7,000,000 would be received, and that \$25,000 in available funds would be required from the purchaser. The auctioneer then proposed \$15,000,000, and descended to \$8,000,000, and from thence to \$7,500,000 without receiving a single bid. After dwelling some time on this price, without receiving any bid whatever, the sale was adjourned sine die.

In New York the provisions of the Prohibitory Liquor Law appear to be construed according to the tastes, rather than the opinions of the Judges before whom infractions of the law are heard. About four Judges out of every five take their "choppers," and this is the proportion of the decisions against the law. As it stands everything is in confusion. In some towns and counties, the law is rigidly enforced, while in others the liquor vendors snap their fingers at it. All admit the law to be a miserable bomb, full of flaws to hang doubts upon. —*Green, T. H.*

A train of cars, at the New York mountain below Reading, was thrown from the track, by the breaking of an axle, and the whole train was wrecked.

Wheat Growing.

Pennsylvania contains some of the largest wheat-growing districts in the Union. The aggregates of the following counties, as stated in the census of 1850, are unequalled by any thing at the West or South, viz.: Lancaster, 1,865,411; Franklin, 887,002; Westmoreland, 668,470.

The largest wheat-growing counties of Ohio are thus reported in the census: Stark, 500,504; Wayne, 571,377; Coshington, 410,018; Muskingum, 415,847; Seneca, 474,737.

Lancaster, Pa., it will be perceived, is one of the chief agricultural wonders of the country, and the Ohio districts are far inferior to the production of ours, of which the following are those lying along the routes of our various railways: Lancaster, 1,865,411 bushels; Franklin, 887,002; Berks, 577,308; Chester, 547,400; Cumberland, 487,182; Bucks, 408,000; York, 578,826; Centre, 433,012; Union, 353,095; Huntingdon, 305,278; Mifflin, 305,994; Montgomery, 309,255; Dauphin, 305,373; Adams, 318,843. This is exclusive of Westmoreland, which is one of the best wheat counties in the State. Altogether, 526,846 bushels; Fayette, 304,102; Washington, 266,182; Westmoreland, 668,470.

Wheat for Export.—The first freight engagement of wheat for export since the new crop began to arrive, was made at New York on Monday, for Liverpool, on 3d. in ship's bags. The exports of wheat last year at New York from Jan. 1st to July 10th amounted to 1,880,000 bushels; this year for the same time, to only 31,298! The Journal of Commerce says it does not expect large clearances until new wheat comes pouring in, when the shipment to Europe will doubtless begin on a large scale.

Crops in Missouri.—It is said that the wheat fields of some sections of Missouri will average thirty bushels per acre, which is a large yield. All of it is said to be in excellent condition. Sales were made at \$1.25 for delivery last week, and contracts at \$1.10 were made for this. A field of eleven acres near Varden threshed out thirty-three bushels to the acre. This was from new ground.

The Victims.—Among the victims of the Eastern War, we may mention Field Marshal Sir Arnold, Adjutant General Esmond, Generals Cathcart, Galt, Strangways and Campbell, Lord Raglan, Admiral Buxton, Captain Christie, and Surgeon General Wreford. To say nothing of hundreds of inferior officers. Many of those who commenced with the campaign, have either gone to their last long sleep, or been maimed. Nicholas of Russia is no more; the armies and fleets of Great Britain and France are in new hands, changes have taken place in the British and French ministries, the Vienna Conference has been broken up, Prince Menschikoff, one of the master-spirits of the struggle, has been removed from the scene of action, Austria still hesitates, and Sebastopol has not been taken. The war thus far has caused many changes and much bloodshed, and the future is involved in doubt.

Emigration to South America.—The South American Republics are taking advantage of the temporary objections raised to immigration into the United States, and have now agents in Germany, Switzerland, and elsewhere to turn the tide of immigration into their own channels. The government of the Argentine republic has recently authorized a capitalist, Mr. Baschenti, to introduce a colony, which the King of the two Sicilies has offered to send at his own charge.

Threatened Famine.—Daily Advertiser proposes that a national day for thanksgiving, and feasting be appointed every year, as an appropriate acknowledgment to the Giver of every good and perfect gift, in view of the bountifulness of His mercies.

Gold on the Continent.—A letter from Strasbourg to the Philadelphia Ledger, says:—Commercially speaking, the war has had a great influence on the previous metals—Gold has actually become a drug on the continent, and is exchanged in London, from Germany, Belgium, and even France, at below par. On the 10th inst., Petersburg took 100,000 francs out, while in Germany gold was selling at 150 francs per ounce. In France, gold is becoming the circulating medium, and is being hoarded up in large quantities. It is the silver which is hoarded by the peasantry, as the article on which less depreciation is feared than any other. American stocks are actively inquired after, and large investments are being made in them in small towns, without producing any sensation whatever. In like manner, large sums are going to the United States, to be invested in public lands, for iron, colonies and generals begin to grow tired, and seek investments for their money in countries not subject to revolution.

In a word, a general feeling of insecurity pervades the whole of Europe, and as each party is happy to ascribe all its mistakes to the hand of war, and of some of its opponents, political rancor increases in proportion to the insecurity of property.
